NYS CONSTITUTIONAL CONVENTION

The Divide New York into two autonomous regions of New Amsterdam and New York Regions is an initiative to separate upstate New York from downstate New York.

This is what's in our plan:

Lower taxes across the board and steer those funds that go downstate back around to upstate where they benefit upstate.

Repeal no sense and non-sense laws, including the Safe Act, and other laws that are tax burdens, restrict our Constitutional Rights, and those laws that simply feed the greedy pockets of our State.

Term limits

Remove Common Core.

Create a more favorable, less restrictive environment for business' to stay here in our area and keep our jobs here, to keep our workers here.

What is NOT in our plan:

Removing or altering state and civil service retirements (both sides of this initiative will NOT touch this even though there are rumors and talk floating around about it).

Making two separate States (while it may be easier to do in New York State, it would be difficult for it to pass the U.S. Congress).

Think about it, High taxes driving businesses out. Common Core scandals. They want to pay for college education, but keep local school property taxes too high. What ever happened to B.O.C.E.S. job training? They have taken away property rights. They have also infringed and taken away our constitutional rights by passing the Safe Act in the middle of the night while we were asleep, without any chance of referendum. It is/was already illegal for a felon to possess a gun, and a criminal who's committing a violent crime won't care about having more than seven rounds in their gun. A government that disarms its citizens is an oppressive government. This State, and its Governor are out of control and we're not looking for any kind of reform. We're looking to fire them, and create our own system that works for us.

You must be registered to vote in order to vote YES or NO. *The vote for a NYS Constitutional Convention will be either on the back of the ballot, or on a separate sheet of paper.*
